Judge Phlegar Here. Judge Phlegar is among yesterday's arrivals. Judge Phlegar is at Murphy's and met a number of friends last night. He is here on private business.

SOCIALISTS CLAIM OVER 600,000 VOTES

Four Years Ago Debs Received Less Than One-sixth That Number.

(By Associated Press.)
NEW YORK, November 12.—Leaders of the Socialist Democratic party are authority for the statement that Eugene V. Debs, the party's candidate for President, polled over six hundred thousand votes in the receipt election, or more than four per cent. of the total vote according to a story to be published in the World tomorrow. Four years ago Debs received 127,730 votes for the same office. The party leaders say over 100,000 Debs votes were cast in Illinois last Tuesday. In speaking of the division of the vote among the leading States, the secretary of the Socialist Democratic party says, in a statement, that the States showing the greatest ratio of increase are Illinois, Ohio, Minnesota, Wisconsin, Pennsylvania, Michigan and California. The news from Washington estimates a large increase, and says the gain is greater in the States where Debs was reported from Massachusetts and Colorado, the vote in the former State being half of that cast in the State election of 1903.

WATSON NOT READY TO MAKE STATEMENT

Says He Is Writing Life of Andrew Jackson—No Conference With Bryan.

(By Associated Press.)
NEW YORK, Nov. 12.—Thomas E. Watson, candidate of the People's party for President, in the recent election, declined to say anything regarding politics to-day. He said that he was preparing a statement on the political situation, but that it would not be ready for publication before Monday. Regarding the report that he contemplated transferring his residence to this city and that he would accept an editorial position on a newspaper here, Mr. Watson said: "My home is in Thompson, Ga., and it will continue to be there. I intend to go ahead with a work which was interrupted when I was offered this nomination—a life of Andrew Jackson. He adds that it was his intention to confer with the national and State committeemen of his own party before returning to his home in the South. "Have you conferred with the leaders of the Democratic party?" Mr. Watson was asked. "No," he replied. "The statements given out by both Bryan and Mr. Hearst precluded anything like that, however, willing I should have been to hold such conferences." Mr. Watson said he had not sent a message of congratulation to President Roosevelt on his election. "I differ with the gentlemen who believe in the propriety of such message," said Mr. Watson, "but do not wish to criticize them. They have a right to their opinions and I hope I have a right to mine."

FINAL COUNT WILL SHOW LITTLE CHANGE

Seven Democratic and One Republican Elector Chosen in Maryland.

(By Associated Press.)
BALTIMORE, November 12.—The boards of election supervisors of Baltimore city and of twenty-two counties of Maryland have reported the official count of the ballot cast last Tuesday. The result indicates that seven Democratic and one Republican elector were elected. St. Mary's county in the "Black Belt" of the State is the only missing report. From the returns at hand at midnight from Baltimore city and the counties of Anne Arundel, Charles, Prince Georges, St. Mary's, Talbot and Worcester, it is certain that the final count of the votes will show little change. The vote for electors was very close.

WILL BE APPOINTED ON STAFF OF DOUGLAS

(Special to The Times-Dispatch.)

SPRINGFIELD, MASS., November 12.—Ezekiel M. Ezekiels, of this county, a Confederate veteran of the Civil War in the famous old Richmond Blues, is likely to be appointed to a place on the staff of Governor-elect Douglas when the Brockton man takes up his duties next March.

Tobacco Growers' Meeting.

(Special to The Times-Dispatch.)
CONCORD, VA., Nov. 12.—Mr. E. T. Bondurant, State organizer for the Tobacco Growers' Association, will address the farmers at State College, Va., at Apomattox and Campbell; Karl, Nov. 15, 3 P. M.; Concord Depot, Thursday, Nov. 17, 10 A. M.; Dinguid's School House, Nov. 17, 8 P. M.; Edgewood School House, Nov. 17, 8 P. M.; Woodland School House, 3 miles south of Plum Branch, Nov. 18, 8 to 4 P. M.; at which place the county association will hold their regular meeting—all day meeting and dinner.

Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"Young Women:—I had frequent headaches of a severe nature, dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice and felt that my case was hopeless, but she kept at me until I bought a bottle and started taking it. I soon had the best result in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."—NETTIE BLACKMORE, 28 Central Ave., Minneapolis, Minn.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. She will hold your letter in strict confidence. She can surely help you, for no person has a larger experience in treating female ills. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass.; her advice is free.

RAILROAD FIGHT IN SOUTHWEST

Contention Is Right of Way From Clinch Port to Wise and Dickerson.

(Special to The Times-Dispatch.)
BRISTOL, TENN., Nov. 12.—The indications are that a railroad fight, the like of which this section of Virginia has not seen before, will soon begin between the promoters of the recently incorporated Virginia and Southeastern Railway and the South and Western Railway, owned by Mr. George L. Carter and associates. The battleground is Scott county, and the contention is a right of way from Clinchport up Clinch River and into the coal fields of Wise and Dickerson counties. A right of way up this river to St. Paul, Russell county, is graded, being a portion of the Three C. road, and is the property of Mr. Carter and his associates, over which it has been their frequently declared purpose to construct a portion of their great trunk line between the coal fields and the Clinch River. The result indicates that the Virginia and Southeastern Railway Company had put a corps of engineers on their proposed route from Clinchport to the coal fields, and that they were following the old roadbed, generally known to belong to the Carter estate. This caused a rush order for men and mules by the Carter people, and to-day forces representing both interests are at work on the line. The result indicates that the Virginia and Southeastern is going to build their line up Clinch River on the best possible grade, and they don't know whether it will fall on the old Three C. line or not. They are said to have entered a condemnation proceeding along the line, and said their plans are well in hand. The people in this section are greatly interested, and particularly in the work begun all along the line of the South and Western. Attorneys for both companies are in touch with the situation and are watching every detail of the proceedings. The Virginia and Southeastern is the road recently chartered with a view to connecting the Southwest Virginia coal fields with the Tidewater Railway.

RAILROAD MEN HERE.

Mr. Wallace, Recently Political Victor, Visiting Relatives.

Mr. George S. Wallace, of Huntington, W. Va., formerly train dispatcher for the Chesapeake and Ohio Railway, and just elected prosecuting attorney of Cabell county, W. Va., is in the city, on a visit to his mother and sisters. Mr. Wallace is well known in Richmond, where he lived some years ago.

Mr. C. E. Postlethwaite, manager of sales for the Pressed Steel Car Company, of Pittsburgh, Pa., is in the city, stopping at the Hotel Richmond Club. This is the largest manufacturing of steel cars in this country.

Mr. John W. Ensign, district manager of the American Car and Foundry Company, Huntington, W. Va., was in the city yesterday and called at the general offices of the Chesapeake and Ohio Railway.

Many railway passenger representatives are camping on the trail of the Forehand-Belt Brothers' condemnation fight, which is to be held at Tarboro, N. C., next Saturday. These enterprising agents are after the travel of the six hundred or more employees who will leave for their homes in all parts of the country.

Float Big Loan.

(By Associated Press.)
ST. PETERSBURG, November 12.—It is understood that arrangements have been practically completed for the floating of a loan of \$250,000,000 in Berlin, of which German banks have underwritten three-quarters and Holland banks the remainder.

Twenty-six Years On the Road.

Among the well known traveling men in the city is Mr. Robert A. Palmer, a Virginian, who has for twenty-six years been traveling for a large Baltimore firm. Mr. Palmer travels four States and is well known in all the cities and towns of the State. He is now on the road selling spring goods. Mr. Palmer is at Murphy's Hotel, but will leave to-night for other cities in the territory. Few men on the road carry so much baggage. The express charges thereon amounting to a considerable figure in the course of a year.

WILL ORDER WARSHIPS OUT OF COMMISSION

Lack of Officers and Enlisted Men in Navy Creates perplexing Problem.

(By Associated Press.)
WASHINGTON, D. C., November 12.—Owing to the lack of officers and enlisted men in the navy to meet the actual needs of the service, it has been found necessary for the Navy Department to order at least three warships out of commission in order to man warships which have just been completed and are now awaiting commission. The three vessels to be put out of commission will be selected from five, which are deemed the least necessary for further active service at this time. The tentative list consists of the cruisers Atlanta, Castine and Marietta, of the South Atlantic squadron, and the gunboats Newport and Bancroft, of the Caribbean squadron.

CARLISLE READY TO BEGIN THE FIGHT

(By Associated Press.)

LEXINGTON, KY., November 12.—John G. Carlisle, former Secretary of the Treasury, arrived in this city tonight from Washington. He was met here by Guy Mellon, president of the Cincinnati Trust Company, and a trustee of Berea College.

ELKS' BIG REUNION WILL OFFER PRIZES

(By Associated Press.)
BUFFALO, N. Y., Nov. 12.—At a meeting of the general committee of Buffalo Lodge, No. 2, Benevolent and Protective Order of Elks, measures were adopted providing for a reunion in connection with the grand national reunion to be held in Buffalo in the week of July 10, 1905. The lodge making the best appearance will receive \$500; the lodge wearing the most unique uniform, \$50; the lodge having the greatest aggregate mileage, \$50; the lodge having the greatest number in line, \$50, and the lodge accompanied by the greatest number of ladies, \$50. A first prize of \$500 will be awarded to the best band of thirty musicians and a second prize of \$250. To the best band of twenty-nine musicians and under will go a first prize of \$100. The second prize is \$250.

The committee adopted a resolution, declaring that only those bands whose members are recognized members of the American Federation of Musicians be allowed in the parade. The only exceptions to be made where there is no local union of musicians in the territory whence the Elks' lodge is participating. The resolution, however, debarred any band within the jurisdiction of the Buffalo Union of the American Federation of Musicians from participating.

PRESIDENT WILL ATTEND DEDICATION

(By Associated Press.)
WASHINGTON, D. C., Nov. 12.—Dr. D. J. Stafford, rector of St. Patrick's Church, of this city, today invited President Roosevelt to attend on Sunday, the 30th instant, the ceremonies incident to the dedication of Carroll Hall, the school for boys, and the rectory, just completed, for St. Patrick's parish. The President accepted the invitation. He may make a brief address at the ceremonies.

Richmonders Off for Horse Show

Fifty or more Richmond people left this city Friday evening by boat, or yesterday by rail for New York, going via the Old Dominion steamer from Norfolk last night to attend the National Horse Show at Madison Square Garden next week. The twelfth annual exhibition of the association opens Monday and will continue to end through Saturday. The show will participate in the big New York show.

Many Others Like Him.

Hon. Frank C. Moon, former member of the State Senate, now practicing at the law office of Lynchburg, is in the city for a day or two. Senator Moon, speaking of the defeat of Parker, stated that he could not adequately account for the tremendous landslide. He did not think it was due to the use of money, but for the reason that it was too widespread and well nigh universal. He attributed the result largely to the personality of the Republican candidate and existing conditions in agriculture and trade.

PROFESSOR'S PHENOMENAL POWER WORKS MIRACLES OF HEALING

The Blind Made to See—The Lame to Walk And Hopeless Invalids Restored to Health When Given Up to Die by Doctors.

NO DISEASE HE MAY NOT CURE

Stops Pain, Heals Sores, Removes Cancers and Tumors, and Performs Marvels That Upset Modern Medical Practice and Defy Explanation.

WOMAN'S STARTLING STATEMENT?

SAYS SHE WAS RAISED FROM THE DEAD BY THIS MAN'S MYSTERIOUS MIGHT.

REMARKABLE OFFER OF FREE SERVICE

To the Sick and Afflicted—Cures Them in Their Own Home As Easily As Though They Called in Person—Physicians Invited to Send Him Cases Pronounced Incurable.

ROCHESTER, N. Y., Nov. 12.—(Special Correspondence.)—The almost miraculous cures of hopeless invalids made by Prof. Thomas F. Adkin, of this city, have been of such a startling character that they have aroused widespread admiration and curiosity. Time and again he has taken cases pronounced hopelessly incurable by the medical profession and restored the patients to life and health in a most phenomenal manner. There is considerable mystery attached to his method of accomplishing these marvels, as it is known that he does not use the drastic drugs and medicines that doctors depend upon. He claims to have discovered that a certain law of nature has peculiar properties heretofore unsuspected, and that by the application of this law there is no disease he may not cure. And it is a matter of proof that with the mysterious power this discovery gives him he has made the blind see and the lame walk. He has revived the flickering spark of life in bodies on the very verge of the grave, and restored to health men and women given up to die by doctors and specialists. He seems to have absolute control over human life and the diseases that attack it. Notwithstanding what might be considered a most favorable opportunity, he does not extort money from those whom he treats, saying: "Carnegie chooses to give libraries; I prefer to give life and health. I am not a millionaire, but I am well able to afford to give my services free to the sick. I tell you right here that I mean to cure every patient a thousand dollars if I wanted to. But I don't. And I know of no law to compel me to take money for restoring a man to health. I am just as ready to cure consumption, cancer, paralysis, Bright's disease or any one of the so-called incurable diseases as I am to cure rheumatism, stomach trouble, catarrh, blood disorders or any other ailment that is due to a pauper. I treat them just the same, to give my services free to a poor man as I am to a rich man. When it comes to a question of life or death, sickness or health, the amount of money a man has makes no difference to me. "A prince or a pauper, I treat them just the same. To me, as to the law, all persons are equal. I see and admit of no difference between patients as far as I am concerned. If I choose to help all who are ill without pay there is nothing to prevent my doing so. And I may as well tell you right here that I mean to cure on curing any one who asks me of any disease they may have just as long as I am willing and able. What other men do, what they fail to do or what they charge makes no difference to me. I feel that it is my duty to carry out my own plans in my own way, however much it costs me. I cannot bear to think of men and women and little children continuing to suffer and die when I have the power, to save them and to restore them to life and health so easily and quickly. And there is no disease I may not cure. "You think that a broad statement? Well, maybe it is; but no broader than the truth. I know the wonderful power I have because I have tested it in thousands of cases. You know consumption is supposed to be incurable. Well, not long ago I had a young lady as a patient, Miss H. L. Kelly, of Seal Cove, Maine. The doctors told her that she had consumption and could not live, that her case was incurable. And to them it was. The poor girl was in despair, thinking her days were numbered. But I cured her in spite of all the doctors said; made her lungs heal and grow strong and put the flesh back on her wasted body. Ordinary medical treatment seldom, if ever, cures cancer. The surgeons may cut it away again and again, but it comes back every time and brings death with it. But I cure it, and I do not have to resort to the butcher's knife, either; I do not have to cut flesh and scrape bones. My treatment is easy, gentle and gives no pain, but the disease disappears. One of my patients—Mrs. M. W. Nolan, of Covington, Ga.—was having her life eaten away by a cancer. She saw nothing but a terrible death before her when I took her case, but I cured her, entirely and permanently. Paralysis is another supposedly incurable disease. A Mr. R. A. Wallen, of Pheny, Mo., had been paralyzed for over four years and nothing the doctors could do gave him any relief. That did not discourage me. I took the case in the face of their verdict and today the man is walking around as well as you or I. So it was with Mrs. L. A. Phillips, of Trawick, Tex. She had been bedridden for five years. In twelve different hospitals and under the treatment of various doctors, who all failed to cure her of the complication of diseases from which she was suffering, including kidney trouble, catarrh of the bladder, gravel, female weakness, ulcers, chronic indigestion and extreme nervousness. The medicine that doctors gave her did her no good, but my treatment did. I cured her, and she says: 'I raised her from the dead.' These are only random cases from the many hundreds I have treated. I mention them merely to show you that it is a mistake to say that any disease is incurable. They may have been incurable before I made my discovery, but they are so no longer. "But how do you make these marvelous cures?" What is this power that you possess?" asked the reporter. "It would take too long to tell you, but here is a copy of a book I have written describing my discovery and my method of treatment. I do not sell it. I had it printed for distribution among my friends and patients and those who might be interested in this study of a new science. To them I am glad to give it upon request. If reading the book does not satisfy you and you want to know more, do not let me hear from you. I will mention them merely to show you that it is a mistake to say that any disease is incurable. They may have been incurable before I made my discovery, but they are so no longer. "But how do you make these marvelous cures?" What is this power that you possess?" asked the reporter. I had it printed for distribution among my friends and patients and those who might be interested in this study of a new science. To them I am glad to give it upon request. If reading the book does not satisfy you and you want to know more, do not let me hear from you. I will mention them merely to show you that it is a mistake to say that any disease is incurable. They may have been incurable before I made my discovery, but they are so no longer. "But how do you make these marvelous cures?" What is this power that you possess?" asked the reporter. "It would take too long to tell you, but here is a copy of a book I have written describing my discovery and my method of treatment. I do not sell it.
